QueensRow East Bacoor City Cavite

Enthusiastic BSIT (Bachelor of Science in Information Technology) graduate with a keen interest in web development, seeking opportunities to leverage technical skills and passion for innovation in the field.

EXPERIENCES

CvSU Bacoor Campus, Bacoor— Full-Stack Web Developer

MARCH 2024 - JUNE 2024

During my internship, I developed a task management system for the university extension department using PHP and MySQL to assign and track faculty tasks. I created a responsive interface with Tailwind CSS and DaisyUI, allowing task uploads, email notifications, and file submissions, with admins able to review, return, or accept documents.

Noah's Ark Dog & Cat Shelter, Pampanga — Full-Stack Web Developer

MARCH 2022 - SEPTEMBER 2023

As a Full Stack Developer, I built a pet adoption website using C# and .NET, with a secure MSSQL database to manage user profiles, pet listings, and adoption records. The site included e-commerce features for pet-related products and an admin dashboard for managing listings and payments.

Seoul Mart Korean E-Commerce Website - Full-Stack Web Developer

SEPTEMBER 2024 - FEBRUARY 2025

Developed a Korean e-commerce website using Next.js for the frontend, Hono.js for the backend, and MySQL for the database. The design was created in Figma to ensure a user-friendly and visually appealing experience. The site features a seamless shopping experience, with optimized performance, secure transactions, and a responsive design tailored to meet the needs of Korean users.
